

MbayC Design Studios, LLC was founded in November 2010 by Calvin Bailey, Landscape Designer. He is a veteran serving six years in the US Marine Corps.

Mr. Bailey earned a Bachelor of Landscape Architecture degree from Oklahoma State University. He completed over seven years of professional landscaping experience with firms prior to founding his company.

MbayC headquartered in Dallas, offers a proven track record of creative, high quality urban planning and landscape designs for state agencies in the public sector, commercial and high-end residential clients.

MbayC provides the highest value and service to meet our client investments in professional landscaping services.

We have earned a good reputation for:

- design /install creative eco-friendly plans
- meeting client needs within zoning laws
- delivering on-time and within budget

TXDOT Capabilities

MbayC takes a team approach to TXDOT work, we participate in the design process with other transportation consulting firms.

Our primary role in highway projects is to assist in integrating environmental concerns with engineering and safety requirements.

We are trained in the earth sciences, construction materials, technology, and aesthetics design.

As a transportation landscape architect firm, we have five primary responsibilities:

1. Safety of the traveling public
2. Stewardship of natural /cultural resources
3. Mitigation of environmental impact
4. Integration into adjacent landscapes
5. Enhancement of transportation aesthetics

With our extensive experience in all aspects of architectural landscaping, we are well qualified to serve on commercial buildings, highway, tollway or roadway projects

MbayC Design Studios provides these landscaping services to meet the unique needs of both public and private sector clients. Our services include:

- **Landscape Architectural Services (541320)**
